Why is Israel the shooting target the U.S.A?

Joseph Farah

The following article is a speech taken from the Joseph Farah in March at a press conference in Nashville, Tennessee, the United States held.

Here we have what John Kerry last week shortly before his first trip as Secretary of State in the Middle East said: "There is nothing more important in our foreign policy, as the negotiations between the Israelis and Palestinians to get back on track. The region and the world can it does not afford the current dangerous impasse in peace process to consist leave. Because if we do not soon make progress, it will be impossible, the two-state to achieve solution. "

I hope I'm not the only one who prays and works actively to ensure that the impasse persists, and that any peace agreement completely fails, the share would Israel again.

What do you mean "again"?

The modern land of Israel has already been divided several times, since the world powers began to help the Jews, a to establish their own state. Thus, today, before more land cessions of Israel demanded that the entire land surface, the Israel managed, represent only a fraction of the area that was intended for them and representing the historical Israel and Judea.

However, there is no other nation in the Middle East, granted its citizens more freedom, which can give more justice to all who eagerly strives for peace with its neighbors and has done more for the welfare of the world, when thinking of new inventions, medicines, technology, food, etc.. There are also no other country in the world, the Mercy has proven his enemies more than Israel.

Why is it the highest priority of the U.S., EU and UN, Israel just to share more?

- In Syria, a bloody civil war rages. Back and land again even bullets from there on the Golan Heights in Israel.
- In Egypt terrorized and murdered the government, the Muslim Brotherhood its citizens, especially the Christians.
- A man in Libya killed the U.S. ambassador and burned our embassy down.
- Hizbullali Hama and send again large, modern Rockets into Israel.
- Iran is preparing nuclear weapons, which - in the words of their own leaders - against the "Little Satan" (Israel) and the "Great Satan" (USA) to be used.
- Jordan may soon be the next domino stones, the

- the Muslim Brotherhood falls after Syria has fallen.
- None of these problems that have caused tens of thousands dead, has anything to do with the fact that Israel (allegedly) has a lot of land. Why is it always the target?
- Then there is also North Korea, South Korea and the rethreatened 30,000 American soldiers stationed there, and the United States itself, It also helps Iran's nuclear program, while its own citizens are starving and in a big gulag (Labor camp) live.
- Russia and China also help Iran. And the European economy wobbles and is on the verge of collapse.

In other words, the whole world is to be working in flames, and yet are U.S. President Barak Obama and his ministers mostly busy, small and Israel to make more vulnerable and less able to stand up to the it has many enemies. to defend.

What is going on here?

It is an asymmetrical war plan of the radical Islamic neighbors to destroy Israel, what they have failed in the course of a generation with conventional wars.

But why is now the No. 1 goal of the American Foreign policy? This is very hard to understand – especially if we think about the fact that there is no negotiating partner who is willing to acknowledge that Israel is an absolute Right to exist.

It is even harder to understand this American policy, if you knows that Israel's enemies assume that the other State must be ethnically cleansed in this two-state solution of all the Jews, and that this solution is only an intermediate stage on the way to the "Final Solution" should be - the total destruction of the Jewish state, which the Arabs confess also prufess freely and openly. <>_____

Note Ahuvalrael: Thank you, Joseph Farah, for this very interesting comments in your speech - and thanks to the "Carmel" magazine for the acquisition of parts of speech in German translation.

I took this picture in 2000, discovered during my one and half year volunteer service in a guest house for Shoa survivors office in Shavei Zion. It was in the then still existing German newspaper: "Chadashot Israel - Israel News" appeared and fully complies with the suggestion of the Palestinian ultimate goal and the support of the governments of the Western world to this day and it seems like for the future !
